About Me

Hi, my name's Daniel and I'm a student in the Department of Informatics at Ionian University.

I am most skilled in: Java and MySQL

Projects

Thesis

*This is what I'm
currently
working on for
my thesis.*

I'm developing
an
Archaeological
Database with
Geographical
Information and
an online user
interface. I have
learned many
skills through
this
project, especially
on Databases,
Geographical
Information

Systems and
web
development.

Education

Ionian University

BS Information Technology

2015 - Present

During my time at Ionian University I have learned most of my key skills that I will use later on.

A Little More About Me

Alongside my interests in Java and Databases some of my other interests and hobbies are:

- Exploring new places
- Going on Road Trips
- Gaming
- Video Editing
